Foreword: This book contains the proceedings of the 11th International Conference on Data Science, Technologies and Applications (DATA 2022), which is sponsored by the Institute for Systems and Technologies of Information, Control and Communication (INSTICC). This year, DATA was held in Lisbon, Portugal from 11 - 13 July, 2022. This conference brings together researchers, engineers and practitioners interested in data science, big data, data mining, data management, data security and other aspects of information systems and technology involving advanced applications of data. The high quality of the DATA 2022 program is enhanced by the two keynote lectures, delivered by distinguished speakers who are renowned experts in their fields: Dmitry Ivanov (Berlin School of Economics and Law, Germany), and Lionel Rigaud (CTO/CEO of TRIMANE and Chief Data Officer at The Blockchain Group, France). DATA 2022 received 84 paper submissions from 36 countries of which 20% were accepted as full papers. **(More)**
